- is of 30 December 1954, no significant changes in the management of the <u>Taegliche Rundschau</u> were anticipated by the German staff. The rumors about the discontinuation of the paper as an organ of the Soviet occupation authorities have died out completely. There is no talk about the transfer of the paper to any East German agency or organization.
- All Soviet editors were still in their previous positions. Minor changes do not indicate any withdrawals of the Soviet control editors or a 25X1 reduction of their number. Batenin (fnu), the publishing manager, has been temporarily replaced by Golovin (fnu)

 It was rumored that Emelianov (fnu), editor of the Cultural Section, will return to the USSR in the near future. It was anticipated that his section will be directed by Kubariova (fnu), the Soviet secretary of the paper. Kubariova's position will be filled by Mel'nikov.
- 5. Several internal changes are expected to be effected in the organizational structure of the paper in January 1955. The West-Berlin Section is to be abolished as a separate unit and is to be incorporated into the Alla-German Section. The Mail Section (Briefabteilung) is also to be abolished as an individual section and will be fused with Leserbriefe under the supervision of the Volkskorrespondenten Section.
- 4. At present, The "RAM" (Rundschau am Monntag) is being edited by Lufer (fru) (East German Section) who is the responsible editor.
